Patented solutions
– our patent for Your roof.

The quality of our roofs has been awarded with a certificate from the Underwriters Laboratories (UL). The UL is the largest independent research centre in the world. Its purpose is to contribute to an increased level of safety and working conditions.

We create beautiful and distinctive technical solutions that go beyond the standards.

We know that the roof is the hallmark of the house. We create solutions of the highest aesthetics, so that homeowners can be proud of a beautiful roof.

Innovation and technical qualities of our products have been repeatedly awarded with gold medals at international fairs.

More than thirty years of experience, knowledge of traditional solutions and the passion that connects us and our activities, allow us to draw on tradition and create reliable and beautiful roofs of the future.

THE FUTURE OF ROOFS,

ROOF FOR YOUR FAMILY.

Aesthetics.

Carefully designed waves and creases will emphasize the beauty of your home whether you choose a modern Murano form or the classic shape of Venecja, Bella Sara, Rialto or Ferrara.

An economical solution.

Fast assembly, small amount of waste, the possibility of returning unused sheets. All this means that you get the highest quality at a reasonable price.

50 —

50-year warranty.

We are so sure of this roof that we give you up to 50 years of warranty for it.

Eco-friendly.

Steel is fully recyclable and can be processed indefinitely. This makes it one of the most eco-friendly materials.

EFFICIENCY OF YOUR WORK.

Perfect for renovation.

Our modular roof concept makes it the easiest to assemble roof cladding on the market. With us you can be sure that roof will be solid and renovation time will be instant.

Quick assembly.

Thanks to our factory-made cups and pre-drilled mounting holes, the sheets fit together perfectly, making it easy and fast to work with them. You piece them together on the roof just like you do the puzzles!

Two people.

The assembly of Budmat modular roof sheets requires only two people. During this time, the rest of your team can get on with another roof.

Roof on a pallet.

The standard roof fits on one pallet, which allows for quick transport to any place.

SOLUTION FOR YOUR COMPANY.

Reliable partner.

Budmat is a manufacturer of high-quality steel roofing, which ensures safety, the best quality and the longest warranty on the market.

Technical support.

Our technical and training advisors, if necessary, will visit your business partner to carry out practical training on site on the installation of Budmat roofing and gutter systems.

Logistics.

Budmat's modern transport fleet, consisting of more than 200 delivery and specialist vehicles, guarantees fast delivery, regardless of the quantity of ordered goods. Our attention to proper packaging, transport and storage allows us to maintain the highest quality of distribution. The entire process of production (starting from coils' arrival and ending with loading) happens under the roof. It provides you with peace of mind when cooperating with us as it guarantees an immaculate quality of our products.

Guaranteed colour and shape consistency.

Modular roofs are easily available, we always have them in stock. We guarantee repeatability of shape and color so you may order them boldly.

galvanized Z275, with organic coating SP35

MODULAR DRY VERGE.

The first such product on the market made of sheet metal as a single piece provides a decorative side finish to the roof.

Modern and elegant, yet bold in shape and style, it makes a real revolution in roof aesthetics.

- The shape and color perfectly match the shape of the Modular Roofs, what gives a uniform design.
- Special embossing and dodging make it possible to match the dry verge with the bargeboards and rafters
- Invisible fixing screws
- Saves time and makes the roofer's work easier
- Available in two versions: left and right

**Modular dry verge

UNIVERSAL MODULAR BARGE FLASHING

New
in offer

Elements of precise finishing of the side edges of roof slopes for versatile use on any roof, regardless the type of the roof.

Features and references:

- **Factory pre-made holes and mounting cups** – our patent allows for precise and quick assembly.
- **Innovative Z-lock** – precise, "slip-on" connection, thanks to which mounting screws are completely hidden and the connections are durable and aesthetic.
- **Longitudinal V-ribbing** – provides additional stiffening and gives an attractive appearance.
- **Tucked-down ends** – guarantee the effect of uniformity and color consistency, eliminating the "shining" effect of the edges.
- **The effective width of 35 cm** – consistent with the dimensions of the roof sheet module, what ensures harmony of the roof slope.

SYSTEM OF MODULAR FLASHINGS

MOD

**ONE
MANUFACTURER
ONE
SYSTEM**

**NEW FINISH
QUALITY
FOR EACH
ROOF**

Roofs are our passion, which is why we reach out boldly for new technologies to provide customers with innovative solutions so they can enjoy the perfect roof. We were the first on the market to add to our range a universal, complete MOD Modular Roof Flashing System, to make roof flashing installation simpler and faster, with a durable and extraordinarily aesthetic effect.

Our experts used specially designed modern machinery to create a universal set of flashings for use on different types of roofs. The entire system, with all its components, is made of steel produced by renowned steelworks – Swedish SSAB and German ArcelorMittal.

Advantages and benefits of the innovative MOD system:

- quick and easy installation by just one person
- invisible screws
- perfectly matched components
- elimination of installation errors
- convenient/problem-free transportation
- guaranteed superior quality of the entire system
- highest aesthetics without scratches, dents, metal filings or non-matching items

SEE MORE

- **PRECISION OF WORKMANSHIP**
- **QUICK AND EASY INSTALLATION**
- **EXCEPTIONAL LOOK**

- Innovative "slip-on" connection system
- Simple, one-person installation made possible by pre-drilled mounting holes and flashing dimensions of 1200 mm in length
- Additional adjustability during installation is possible, even after provisional screwing of the flashings, thanks to oblong mounting holes
- Bendings make the flashings stiffened and prevent from their corrugation

Concealed mounting screws thanks to "slip-on" connection

Contemporary construction industry demands and expects comprehensive, high-quality solutions, which are quick and easy to install. The MOD system is one such solution – an innovative, universal product suitable for all types of roofing. Ready-made, perfectly matching accessories for a superior aesthetic finish for every roof. A durable, beautifully finished roof on your house with the MOD Modular Roof Flashing System.

The MOD system has received the Technical Recommendation of the Building Research Institute in Warsaw. RT ITB-1292/2020
